Conferences and Workshops

For upcoming DCMP conferences and workshops please go to:
http://www.aps.org/units/dcmp/meetings/index.cfm?utm_source=Units&utm_campaign=035db85a7e-DCMP+041315&utm_medium=email&utm_term=0_a5eb4215e8-035db85a7e-106977225

Various other physics conferences around the world go to http://www.ysfine.com and chose CONFMENU.

SIDE 13 is the thirteenth in a series of biennial conferences devoted to Symmetries and Integrability of Difference Equations, and in particular to: ordinary and partial difference equations, analytic difference equations, orthogonal polynomials and special functions, symmetries and reductions, discrete differential geometry, integrable discrete systems on graphs, integrable dynamical mappings, (discrete) Painlevé equations, integrability criteria, Yang-Baxter type equations, cluster algebras, difference Galois theory, quantum mappings, quantum field theory on space-time lattices, representation theory, combinatorics, numerical models of differential equations, discrete stochastic models and other related topics. For more information please visit http://sites.google.com/site/side13conference/

Thematic three-month program entitled "Analytics, Inference, and Computation in Cosmology" at the Institute Henri Poincaré in Paris, and organized in collaboration with the Emile Borel Center, from September 3rd to December 14th, 2018. Information can be found at: http://ilp.upmc.fr/CosmoMath18

CCS2018 is the flagship conference on Complex Systems promoted by the CSS. It brings under one umbrella a wide variety of leading researchers, practitioners and stakeholders with a direct interest in Complex Systems, from Physics to Computer Science, Biology, Social Sciences, Economics, and Technological and Communication Networks, among others. For more information visit http://ccs2018.web.auth.gr

http://ccs2018.web.auth.gr
Important dates:
Earlybird Registration: 30 June 2018
Dates of the Conference: 23-28 September 2018
Dates of satellite meetings: 26-27 September 2018
If you have any questions, please do not hesitate to contact us: ccs2018@auth.gr

Thematic three-month program titled "The mathematics of imaging" at the Institut Henri Poincare in Paris and organized in collaboration with the Emile Borel Center, from January 7th to April 5th, 2019. For more information please visit https://imaging-in-paris.github.io/
CCS2018 is the flagship conference on Complex Systems promoted by the CSS. It brings under one umbrella a wide variety of leading researchers, practitioners and stakeholders with a direct interest in Complex Systems, from Physics to Computer Science, Biology, Social Sciences, Economics, and Technological and Communication Networks, among others.
We are looking forward to seeing the best of your new insights in Complex Systems at the Conference on Complex Systems 2018, in Thessaloniki, Greece, to be held from 23 to 28 September 2018. For more information please visit http://ccs2018.web.auth.gr

We would like to bring three conferences held this December in Australasia to your attention. All are keen to welcome international scientists to their meetings and would like to extend a particular welcome to the North American and international statistical physics community.
2) SM^2 "Statistical Mechanics of Soft Matter" (http://smsq.github.io/) December 6-7,2018
